## SARDINE FACTORY BURNED.

Millbridge, Me., June 4.—A sardine factory and cook-house and a general store and livery stable, together with a portion of the Maine Central steamship wharf, were destroyed by fire which started on the roof of the factory from a spark from the smokestack. The loss exceeds \$15,000. The factory had just begun operations for the season.

# OVERTOPS ALL RECORDS.

Steamer Alice M. Jacobs  
Stocks Over \$8000.

ON HER CAPE SHORE TRIP.

Largest Single Fare Mackerel  
Stock Ever Made.

Steamer Alice M. Jacobs, Capt. Solomon Jacobs, stocked just a little over \$8000 as the result of her recent Cape Shore mackerel trip. On this magnificent stock, the crew made the fine share of \$158. They shared \$52 out south, so now have \$210 each to their credit.

The share would have been larger, but for the fact that the steamer carries 23 men. This added to the increased cost of coal and having to buy a license made it less than it otherwise would have been.

This stock of \$8000 is the largest ever made on one single fare of mackerel. It breaks all all previous records in this respect, and will probably stand as the high water mark for some years to come.

Capt. Jacobs will lose no time, but will sail today for the southward, as the prospect is bright out around No Man's Land.

## MACKEREL PLENTIFUL.

Have Appeared in Good Quantities at Arichat, C. B.

First Fish in 25 Years Taken at Caribou Cove.

Mackerel struck in very plentiful at Arichat on Friday. Those having nets set in the harbor averaged about two barrels to a net. In Leonox, a passage at the Basin River Inhabitants and at Caribou Cove mackerel are reported to be plentiful. This is the first time in twenty-five years that these fish have visited these grounds. In former years large catches of spring mackerel were always taken there and in the waters surrounding Isle Madame.

The Dominion Fisheries Intelligence Bureau of Monday, makes the following report on mackerel:

Yarmouth, Iron Mine trap 1300 fish; none at Pubnico; few mackerel at Lunenburg, dog fish troublesome; very plenty at Canso and Port Malcome, and Port Hawkesbury.

## Two White Whales Trapped.

Two large white whales, rare specimens in Atlantic coast waters, are imprisoned in the Bras d'Or Lakes, Cape Breton. They are supposed to have entered the lakes in pursuit of mackerel schools, which have been plentiful there this spring. Cape Breton fishermen are making great efforts to capture them, and are keeping close watch along the shores of the lakes.

## Bait at Newfoundland.

A special to the TIMES from P. D. Burke at Conn river, N. F., this morning states that he has 800 barrels large herring well secured in seine. Any vessels wanting bait wire if coming.
